

Millet AI Advisory Resource Directory (India)

Prepared for text- and voice-based AI advisory development. Compiled on 14 April 2026 from official government / ICAR / university sources wherever available, and from direct manufacturer or seed-company websites for commercial equipment and seed-company references.

How to use this directory: Prefer the official ICAR/FSSAI/Gol resources as your core knowledge base. Use company and vendor pages mainly for product discovery, vendor outreach, and periodically refreshed commercial metadata.

1. Millet package of practices

Coverage	Publisher	Resource	What it gives you	Link
All millets (latest compiled production + processing guide)	ICAR–IIMR	Latest Millet Production and Processing Technologies (2024)	Compilation of production practices for sorghum + 8 millets, plus primary/secondary processing.	PDF
All millets (good agricultural practices)	ICAR–IIMR	GAP Manual for Sustainable Millets (2025)	Cross-cutting agronomy, soil, water, weed, harvest and post-harvest guidance.	PDF
Kharif sorghum	ICAR–IIMR	Recommended package of practices: Kharif sorghum	Season-specific sorghum production guidance.	PDF
Rabi sorghum	ICAR–IIMR	Recommended package of practices: Rabi sorghum	Season-specific rabi sorghum production guidance.	PDF
Pearl millet	ICAR–IIMR	Recommended package of practices: Pearl millet	Crop-specific agronomy, spacing, fertilizer, pest management.	PDF
Finger millet	ARIAS / ICAR-linked dissemination	Finger millet (Package of practices)	Crop-specific package with regional/seasonal guidance.	PDF
Foxtail millet	ICAR–IIMR	Recommended package of practices – Foxtail millet	Crop-specific package.	PDF
Kodo millet	ICAR–IIMR	Recommended package of practices – Kodo millet	Crop-specific package.	PDF
Little millet	ICAR–IIMR	Recommended package of practices – Little millet	Crop-specific package.	PDF
Barnyard millet	ICAR–IIMR	Recommended package of practices – Barnyard millet	Crop-specific package.	PDF

2. Millet varieties and hybrids for seasons and locations

Crop / scope	Publisher	Resource	What it gives you	Link
Pearl millet	ICAR-AICRP on Pearl Millet	Pearl Millet – Hybrids and Varieties	Compendium of hybrids/varieties with adaptation details; strong base for variety recommendation logic.	PDF
Sorghum	ICAR-IIMR	Latest sorghum varietal technology for commercialization	Commercializable sorghum cultivars with salient traits and target use.	PDF
Multi-millet (commercialization oriented)	ICAR-IIMR	Millet Cultivars – Commercialisation	Includes finger millet CFMV-2/3 and other millet cultivars with release year, yield and recommended area.	PDF
Finger millet	ICAR-IIMR	Finger Millet Brochure	Crop profile with state-wise varieties, maturity and agronomic basics.	PDF
Foxtail millet	ICAR-IIMR	Foxtail Millet Brochure	Crop profile with state-wise varieties and sowing windows.	PDF
Little millet	ICAR-IIMR	Little Millet Brochure	State-wise varieties plus kharif/rabi sowing windows.	PDF
Kodo millet	ICAR-IIMR	Kodo Millet Brochure	State-wise varieties and crop profile.	PDF
Authoritative overview portal	ICAR	Millet crop-science page	Current ICAR page highlighting improved millet varieties and trait examples.	Website

3. Seed availability platforms in India

Note: only a few sources expose near-live stock information. Many company and corporation websites are catalogue- or dealer-led rather than true real-time inventory systems.

Type	Owner	Platform	Use case	Link	Real-time note
National live dashboard	Government of India	SeedNet India – Seed Availability	Closest official real-time multi-state seed availability dashboard.	Portal	Live stock lookup by state/crop/agency.
National breeder-seed planning	Government of India	SeedNet India	Breeder seed / seed-chain planning and notices.	Portal	Good for seed-system intelligence, not retail sales.
Research institute / university stock	TNAU	TNAU Seed Stock Position	Direct university seed stock / ordering information.	Portal	One of the clearest institutional stock portals.
State seed corporation	AP Seeds	AP State Seeds Development Corporation	Public-sector supply portal covering jowar and millet crops.	Portal	Government supplier; stock and procurement flow may vary seasonally.
Millet crop page	AP Seeds	Millets – AP Seeds	Crop list and millet coverage on official AP Seeds website.	Website	Useful for crop taxonomy and product discovery.
State seed corporation	KSSCL	Karnataka State Seeds Corporation	Official corporation website; variety portfolio and dealer/corporate routes.	Website	Not a real-time stock dashboard.
State seed authenticity / traceability	Karnataka Govt.	KSSOCA / SATHI	Authenticity, traceability and seed-system governance context.	Website	Useful for seed validation layer.
National seed corporation	NSC	NSC official website listing	Official entry point to National Seeds Corporation services/products.	Website	Official directory link to NSC.
Seed company	Advanta	Pearl millet crop page	Private-sector hybrid pearl millet portfolio and product pages.	Website	Catalogue/product discovery, not universal live stock.
Seed company	Kaveri Seeds	Field crops – Bajra / Sorghum	Private-sector millet field-crop portfolio.	Website	Catalogue/product discovery.
Seed company	Mahyco	Pearl millet product pages	Private-sector bajra hybrid product pages.	Website	Product-level details; stock typically via dealer network.
Seed company	Nuziveedu Seeds	Corporate site	Company-level crop coverage includes sorghum and pearl millet.	Website	Use for company reference and dealer follow-up.

4. Millet nutritional values and health benefits

Topic	Publisher	Resource	Use in AI advisory	Link
Nutritional composition + health benefits	ICAR–IIMR	Nutritional and Health Benefits of Millets	Detailed nutrient and health-benefit reference from IIMR.	PDF
Comparative nutrition table	FSSAI	Millets – The Nutri-cereals	Comparative chart of millets vs rice/wheat and policy-grade nutrition communication.	PDF
Nutri-cereals booklet	Directorate of Millets Development / GoI	Nutritional and Health Benefits of Nutri Cereals	Government booklet with nutritional-value chapter.	PDF

Topic	Publisher	Resource	Use in AI advisory	Link
Consumer standards / awareness	FSSAI	Shree Anna standards / awareness material	Consumer-facing standards and awareness material for millet foods.	PDF

5. Millet recipes

Type	Publisher	Resource	Use in AI advisory	Link
Recipe compendium	ICAR–IIMR	Millet Recipes – A Healthy Choice (2021 web edition)	Broad recipe base for consumer advisory and product ideation.	PDF
Recipe portal	ICAR–IIMR	Millet Recipes page	Central page hosting recipe PDFs and language variants.	Website
Government recipe book	Directorate of Millets Development / GoI	Millet Recipes – A Healthy Choice	Official recipe book mirror under Nutri Cereals portal.	PDF
FSSAI recipe book	FSSAI	Shree Anna recipe e-book	Useful for consumer menu design and public nutrition messaging.	PDF

6. Post-harvest and value-added equipment knowledge sources

Equipment scope	Publisher	Resource	Use in AI advisory	Link
Primary processing	ICAR–IIMR	Latest Millet Production and Processing Technologies (2024)	Official overview of cleaning, dehulling, milling, flakes, malt and other lines.	PDF
Primary processing models	ICAR–IIMR	Primary Processing of Millets (2025)	Farm-gate/custom-hiring models and practical primary-processing cases.	PDF
Value-added technologies	ICAR–IIMR	List of technologies available for commercialization	Official list of millet value-added technologies for licensing/commercialization.	PDF
Technology transfer route	Agrinnovate India Ltd. / CIAE	Power operated millet flaking machine	Government commercialization entry for flaking technology.	Website

7. Millet post-harvest and processing equipment vendors

These are direct manufacturer or commercialization routes, not endorsements. Verify current specifications, food-contact materials, after-sales support, capacity, and local service before procurement.

Category	Vendor	Reference page	Typical use	Link	Note
Post-harvest / dehulling / grading	Perfura Technologies	Direct manufacturer website	Millet processing lines, dehullers, destoners, graders, flour systems.	Website	India-based specialist in millet post-harvest machinery.
Millet dehuller product example	Perfura Technologies	Millet Processing Unit – Double Stage Millet Dehuller	Useful for mapping machine type to crop use (little/kodo/foxtail/proso/barnyard).	Website	Product-detail page.
Flaking / flakes line	Abhay Engineering	Millets Flakes Machine	Millet flakes cooker / flakes line.	Website	Useful for flakes/value-added plant directory.
Flaker / lab or pilot scale	KK Lifesciences	Lab model grains / millet flaker machine	Pilot or small-scale flaking reference.	Website	Useful for R&D; or pilot plants.
Extruded snacks line	Kalyan Machines	Automatic millet snacks puff processing line	Value-added snacks line for millet extrudates.	Website	Commercial snack line.
Millet cookies / bakery line	Kalyan Machines	Millet Cookies Plant	Bakery/value-added line.	Website	Useful for packaged millet foods.

8. Suggested knowledge-base priority for an AI advisory stack

Tier 1 (core authoritative base): ICAR–IIMR production/processing booklets, ICAR crop pages, AICRP variety compendia, FSSAI guidance notes, Directorate of Millets Development publications.

Tier 2 (operational India seed-system layer): SeedNet live availability, TNAU seed stock, AP Seeds, state seed corporations, institutional seed portals.

Tier 3 (commercial discovery layer): seed-company websites and equipment-vendor pages, refreshed frequently because product portfolios and availability can change faster than institutional PDFs.
